Hitler's Troops Occupy North Italian Cities

Badoglio Orders Forces To Block Nazi Passage

(FROM OUR CORRESPONDENT)

LONDON, July 29.

It is reported from Madrid that five Italian divisions equipped with heavy artillery, have been posted at the Brenner Pass to prevent by force, if necessary, further arrival of German troops in Italy. The troops have been ordered to block railways and roads behind them.

Marshal Badoglio has also informed Hitler that as Germany had refused to defend Italy, he would not allow German soldiers to enter Italy.

Hitler on his part, has ordered 60,000 German troops, who are at present in Northern Italy to occupy the strategic positions, regardless of Italian opposition.

Latest reports say that German troops are crossing the Brenner Pass for reinforcement. They have established their General Headquarters at Bolzano near the Brenner Pass.

NEW YORK: THE COLUMBIA BROADCASTING CORRESPONDENT AT BERNE QUOTING A MESSAGE FROM THE ITALIAN FRONTIER REPORTS THAT GERMAN DIVISIONS HAVE MOVED TO THE BRENNER PASS AND TAKEN COMPLETE CONTROL OF TRIESTE, FUMME AND POLA. HE ADDS GERMAN FORCES ARE RAPIDLY OCCUPYING THE ISTRIAN PENINSULA.

According to a telegram from Rome, the Pope yesterday had a long talk with Cardinal Luigi Macchi, the Pontifical Secretary of State. He also conferred with the Apostolic Nuncio to Italy, M. Borgoncioli and the Secretary of the Italian Republic, M. Borelli.

FASCISTS ROUNDED UP

The Rome radio announced tonight that the Badoglio Government has decided to prohibit formation of any political party for the duration of the war. The use of political emblems and badges is also prohibited. The Chamber of Fasces and Corporations has been dissolved. The release of political prisoners is already in progress and some former members of the Fascist Party have been rounded up in order to maintain public order.

From Reuters special correspondent on the Italian frontier at Chiasso: The situation in Milan has become worse. Troops are almost ceaselessly engaged in halting peace demonstrations. Troops are also trying to run the city's local transport.

Turin has also been the scene of anti-Fascist outbreaks. Newspapers emphasize that the situation in the country is very grave and call on the people to remain calm.

The Northern Italian newspaper "Provincia de Como" today, referring to the natural desire of the Italians to punish those responsible for Fascist aggression, calls in them to "overcome their spirit of vengeance. Wait but do not forget. There are now more important things to do."

The German Gestapo in Italy ceased its activities as soon as the news of the fall of the Fascist regime was received. The order from the new Italian Government for them to cease work came almost too late as they had already received orders from their Headquarters to leave Italy. They were told to leave by train and to travel at night during the curfew to avoid hostile demonstrations.

Members of the Fascist Militia working on the frontier have been put under army officers and are still in the regular army. The Fascist emblems they wore have been replaced by the military insignia.

Italy surrenders, immediate unconditional release of all Allied prisoners will be one of the automatic conditions of armistice. It would be an act hostile to Italy's part to move any prisoners out of the country into any German-occupied territory.

International Red Cross organisation is understood to be examining the question of an abnormal movement of prisoners of war inside Italy. It has about 50 prisoners-of-war camps.

Big Allied Convoy At Gib. LONDON, July 29: The German overseas news service stated tonight: "It is reported from the Luthian that a strong convoy of 75 Allied ships, including tankers, freighters and troopships passed the Straits in the direction of the Mediterranean this morning. Six of the freight ships have anchored in the Bay of Gibraltar and are now unloading war material. The rest of the convoy is continuing in the direction of North Africa and Sicily—Reuter.

EISENHOWER'S CALL TO ITALIANS The Algiers Radio broadcast a special message to the Italian people

Roosevelt Offers

Four Freedoms To Italians

WASHINGTON, July 28.

President Roosevelt in a broadcast to United States last night declared that the war will go on. President Roosevelt said over a year and a half ago I said to Congress, the militarists in Berlin, Rome and Tokyo started this war but the massed armed forces of common humanity will finish it.

That prophecy is in the process of being fulfilled. The massed armed forces of common humanity are on the march.

They are going forward—on the Russian front, in the vast Pacific area and in Europe—converging upon their ultimate objectives, Berlin and Tokyo.

The corrupt Fascist regime in Italy is going to pieces. The pirate philosophy of the Fascists and Nazis cannot stand adversity.

The military superiority of the United Nations—on sea and land and in the air—has been applied in the right place and at the right time.

Hitler refused to give sufficient help to save Mussolini. In fact Hitler's troops in Sicily took all motor equipment leaving the Italian soldiers so stranded that they had no choice but to surrender.

Once again the Germans betrayed their Italian allies as they had done time and time again on the Russian front and in the long retreat from Egypt through Libya and Tripoli to the final surrender in Tunisia.

Mussolini came to the reluctant conclusion that "I was up." He could see the shadow of the long arm of justice.

NO TRUCK WITH FASCISM

But he and his Fascist gang will be brought to book and punished for their crimes against humanity. No criminal will be allowed to escape the expedition of retribution. Our terms to Italy are still the same as our terms to Germany and Japan—unconditional surrender. We have no truck with fascism in any form, shape or manner. We will permit no legacy of fascism to remain.

Eventually, Italy will reconstitute itself. It will be the people of Italy who will lead the nation to their own Government in accordance with the basic democratic principles of liberty and equality. In the meantime, the United Nations will not follow the pattern set by Mussolini and Hitler and the Japanese for the treatment of conquered peoples.

We are pushing forward to the occupation of positions which will in the long run be for the benefit of the Italian people. We are establishing and maintaining security and order—we are dissolving the organisations which have kept them under Fascist rule.

—We are providing them with the necessities of life, until the time comes when they can stand on their own feet. Indeed, the people in Sicily to-day are rejoicing in the fact that they are no longer under the thumb of the Fascists and the Nazis.

In every country conquered by the Nazis, the fascists or the Japanese military rule has been replaced by the status of slaves or chattels. It is our determination to rescue these conquered peoples from the ignominy of human beings masters of their own fate, entitled to freedom of speech, freedom of religion, freedom of movement and freedom of trade.

We have started to make good on that promise. I am sorry if I step on the toes of those Americans who, playing the game of the "divide and conquer" policy, have been trying to keep Italy in a state of confusion.

It is six months since we planned the Sicilian campaign. I confess that I am impatient of discussion, but that most people understand the amount of time necessary to prepare for military operations and the amount of time necessary to prepare for the opening of negotiations with the Italian leaders with a view to reaching a settlement.

The letter urges "the release of the Congress Working Committee and all democratic anti-Fascist leaders the permitting of negotiations between representative leaders of all political sections with a view to their reaching agreement on their immediate proposals. Following these steps, the resumption of negotiations with Italian leaders and energetic measures to meet the present food crisis by increased production, requisitioning of food and organisation of supplies and distribution."

Mr. Harry Pollitt on behalf of the Communist Party in a letter addressed to Viscount Wavell, Viceroy-Designate of India, appeals for a new approach to the Indian situation and for the opening of negotiations with the Indian leaders with a view to reaching a settlement.

COMMUNIST PARTY'S APPEAL TO WAVELL

LONDON, July 29. Mr. Harry Pollitt on behalf of the Communist Party in a letter addressed to Viscount Wavell, Viceroy-Designate of India, appeals for a new approach to the Indian situation and for the opening of negotiations with the Indian leaders with a view to reaching a settlement.

we went into Sicily—together. And we shall carry on together.

To-day our production of ships is almost unbelievable. This year we are producing over 19,000,000 tons of merchant shipping and next year our production will be over twenty-one million tons. And in addition to our shipbuilding across the Atlantic we must realise that in this war we are operating in the Aleutians, in the distant parts of south-west Pacific in India and off the shores of South America.

HEROIC RUSSIA The successful Russian armies have shown that it is dangerous to make prophecies about them—a fact forcibly brought home to that mystic mantle of strategic intuition, Herr Hitler.

The world has never seen greater devotion, determination and self-sacrifice than have been displayed by the Russian people and their army under the leadership of Marshal Joseph Stalin.

In the Pacific we are pushing the Japanese around from the Aleutians to New Guinea. There too we have taken the initiative and we are not going to let go of it.

It is clearer and clearer that the Japanese are losing the war. The Japanese have lost more planes and more ships than they have been able to replace.

The continuous and energetic prosecution of war by the United States drive the Japanese back from their over-extended line running from Burma to the Philippines, from the Netherlands East Indies to eastern New Guinea and the Solomon Islands. We have good reason to believe that their shipping and air power cannot support such outposts.

If the Japanese are basing their future plans on the fact that we are in a long period in which they will be permitted to consolidate and exploit their conquered resources they had better start revising their plans.

I give that to them merely as a helpful suggestion. We are delivering the goods. We are supplying the heroic armies of Generalissimo Chiang-Kai-Shek and we must do more at all costs. Our air supply line from India to China across one of our territories continues despite anti-Japanese Japanese interference. We are bombing Japanese communities in China and Indo-China and Burma.

POST-WAR PLAN But we are still far from our main task. We are still fighting against Japan. Let us remember how we were one year ago from any of our objectives in the Pacific. We are still far from our main task. We are still fighting against Japan.

We are pushing forward to the occupation of positions which will in the long run be for the benefit of the Italian people. We are establishing and maintaining security and order—we are dissolving the organisations which have kept them under Fascist rule.

home may not like the driving wartime conditions under which he has to work or life. And yet—if he gets complacent or indifferent and slacks on his job, he too may sacrifice the lives of American soldiers and contribute to the loss of an important battle. Next time anyone says to you that this war is "in the bag" and "it is all over but the shouting" you should ask him these questions: "Are you working full time on your job? Are you growing all the food you can? Are you buying your limit of war bonds? Are you loyally and cheerfully co-operating with your Government in preventing inflation and profiteering and in making rationing work with fairness to all? Because—if your answer is no—then the war is going, to last a lot longer than you think."

TOTAL VICTORY The President concluded: "The plans we made for kicking out of Mussolini and his gang have largely succeeded. But we still have to kick out Hitler and his gang and Tojo and his gang. No one of us pretends that this will be an easy matter. We still have to defeat Hitler and Tojo in their own home grounds, but this will require a far greater concentration of our national energy and our ingenuity and our strength and intelligence and willpower of the United States. But we will do it. That must be and will be the determination of every American here at home."—Reuter.

Amery On Govt.-Gandhi Correspondence

'Not Prepared To Disclose Contents'

WESTMINSTER, July 29.

Mr. Amery gave a negative reply to the question by Mr. Sorensen (Labour) asking whether Mr. Gandhi had asked permission or made any attempt to write to the Viceroy or the Secretary of State since last March and whether the Viceroy or the Secretary of State had communicated with Mr. Gandhi or any Congress leader.

Mr. Amery added, "Letters have, however, passed from time to time between Mr. Gandhi and the Home Department of the Government of India, but I am not prepared to disclose their number or contents".

Mr. Sorensen: May we have no idea whether the communications were of a political nature making any representations or expressing any protest?

Mr. Amery: No. In view of the circumstances of Mr. Gandhi's arrest, the Government of India have decided that he should not be afforded any opportunity of expressing or conveying his views to the public either in India or this country.

Mr. Sorensen: How can anyone in this country know what particular views Mr. Gandhi has regarding the present situation?

Mr. Amery: It is not desirable that they should.

Proposed Visit Of Indian Editors

Mr. Amery told the Commons that Government of India were investigating the proposal that Indian editors or responsible journalists representing all parties should visit Britain. He understood however that the practical difficulties were likely to be considerable.

Mr. Sorensen (Labour) asked whether the practical difficulties were any greater in respect of India than in West Africa or the West Indies. He also asked whether the Government would be prepared to consider the proposal that there should be representative groups from India.

Mr. Amery:—Yes, but transport from India by sea is very much longer than from either of the places mentioned and the cost of air is very difficult to secure. Mr. Amery added that the Indian Government would undoubtedly let him know the results of their investigations.

PARTY OF FOURTH INDIAN DIVISION TO VISIT BRITAIN Arrangements are now being made for a party representative of all ranks of Fourth Indian Division both British and Indian to visit Britain. Mr. Amery stated this in the Commons to-day amid cheers. Regarding the visit of the party might also visit the U.S.A. Mr. Amery said that the difficulty was that the division was engaged in active operations and the length of time involved in the crossing of the Atlantic might make it very difficult to spare them. The division was not in India but in North Africa.

Ban On "Soviet Day" In Cocoonada WESTMINSTER, July 29. DURBAN, July 29. The Supreme Court on Thursday delivered judgment in favour of Mr. Suleman Mahomed Nana, Secretary of the Transvaal Indian Congress, for £300 with costs in the libel action against Mr. Manilal Mohandas Gandhi, proprietor of "Indian Opinion". Mr. Nana had claimed £2,000.

Justice Mathison in an exhaustive judgment referred to the reason for the formation of the National Bloc in the Transvaal Indian Congress. In the two articles complained of, stress was laid on the fact that the party and they were clearly defamatory to the Congress leaders charging them with organised violence and gangster methods and offering bribes for votes. Most shocking are the reports

coming from Calcutta of people

dying in the streets through sheer

starvation and yet not admitted

into hospitals and of dead bodies

on public roads not removed for

hours together. One member of

the City Corporation stated that

as many as 27 dead bodies were

removed by one organisation and

several others by another on one

particular day. We fear there will

be many more tragedies of death

from starvation if concerted ef-

forts are not made to avert them

by Government and the public.

Secondly, if people are found

dying on the roadside, they must be

at once removed to the hospi-

tals where they must be treated

till they pass the crisis. Free kit-

chens should also be started to

feed the starving. Finally Gov-

ernment, the Corporation and vol-

untary organisations should co-

operate to see that dead bodies

are soon removed from public

roads. Else the morale of the peo-

ple will be terribly affected and

they will seriously wonder if there

is a Government at all in the

city.

FRANKLY

SPEAKING

Italian Echo?

While German troops are said

to have feverishly begun to pour

into Italy through the Brenner

Pass, an Associated Press message

from Istanbul reports the mass-

ing of German divisions along

the Hungarian border, too. This

development appears extremely

significant for, if true, it is a

clear indication that the collapse

of Fascist dictatorship in Italy

has sounded like the crash of

doom into the ears of Hitler's

satellites and is being taken

seriously in Germany. The Hun-

garian cabinet has held a pro-

longed session to discuss "cur-

rent affairs" and in similar

plight must be the other Bal-

kan governments, who may

soon find the war rearing the

borders of their own countries.

The reports may be mere rum-

ours but they do emphasise an

indubitable possibility. In any

case the erstwhile tools of Hitler

may now well serve as the mil-

stones around his neck for, add-

ed to the two front war, is the

necessity of policing the territories

of his own vacillating hangers-on.

Maisy's Transfer

M. Maisy's transfer from the

post of Russian Ambassador in

London, which he had held for

a decade, to the Soviet Foreign Of-

fice, has been announced.

The transfer is a significant

move, indicating the Soviet Gov-

ernment's desire to strengthen

its diplomatic ties with the West.

Maisy, who has served the

Soviet Union for many years,

is well known for his loyalty

and diplomatic skills. His new

post will require him to work

closely with the Soviet Foreign

Ministry to handle matters

concerning the Soviet Union's

relations with the West.

The transfer is expected to

take effect in the near future.

Maisy's departure from Lon-

don will be a significant

event in the diplomatic

calendar of the Soviet Gov-

ernment.

The transfer is a clear

indication of the Soviet Gov-

invited to draw up a constitu-

tional memorandum which, after

being approved by His Majesty's

Government, will be referred after

the war to political parties and

they will be asked to work it

out. It is unnecessary to com-

ment on these forecasts to-day.

We shall first see what precisely

Lord Linlithgow says on this sub-

ject.

It is necessary, however, to re-

emphasize the point that no de-

claration can satisfy the public

if it concerns only the future con-

stitution and if it does not inau-

gurate immediately a truly Na-

tional Government. The demand

for a National Government has

been made by all important poli-

tical parties in the country and

has been endorsed even by the

No-Party Conference. The war is

no objection to the demand,

which, in fact, has been pressed

for the very purpose of ensuring

a speedy and complete victory

and safeguarding the interests of

the people during the war. This

double purpose can be served

only by a National Government,

and all the present discontent

and the political and economic

troubles attending it are due main-

ly to the absence of a National

Government. And the point that

needs to be repeatedly emphasiz-

ed is that no negotiations of any

kind regarding the constitutional

deadlock can help to solve it with-

out the participation in it by Gan-

dhi and other Congress leaders.

Therefore, the expected celebra-

tion of the release of Gandhiji

is not meant to be a mere sop

or an apple of discord, the first

essential to their success is the

release of Gandhiji and the mem-

bers of the Working Committee.

SUSPICIOUS ANSWER

President Roosevelt's broadcast

is more categorical in its demand

for the unconditional surrender

of Italy than Mr. Churchill's ear-

lier speech on the same subject.

What does this mean? It means

seriously the post-war treat-

ment of Italy in respect of her

ill-gotten "Empire." Mr. Anthony

replied in the negative to a par-

liamentary question whether it

was the intention of the Allied

Governments to restore to Italy

all her former possessions in

North Africa. The question was

ambiguously worded and the re-

ply does not clarify the problem.

In fact, the interpellation streng-

thens the suspicion we have al-

ready expressed. Is it the inten-

tion to restore, for instance, Lib-

ya to Italy because the liberation

of Arabs there will affect pre-

judicially French Imperialist do-

minion over north-west Africa?

The temptation is strong for the

British to help preserve the Em-

pires of other European countries

in order "to hold" what they im-

morally claim to be their own.

The Half-Column "By Dim"

It's a funny thing about some of our so-called landed gentry residing on Malabar Hill that when they write what they must be regarding as 'letters full of invective' they never have the guts to sign their name. Apparently they are ashamed of themselves. What I don't understand is that if they feel the way they do about poor Rome being bombed and all its ancient civilization, why don't they have the courage to say so instead of writing anonymous letters to me on the subject. Put your name and address on it, my dear Sir or Madam, and I'll forward your feelings on the subject to the right quarters. Incidentally, don't camouflage your Papyrus Roman newspaper in a cheap little envelope. Put your crest on it too—Your embossed address!

I saw a small box-inset the other day on the front page of the "Bombay Chronicle" of a man who dies of starvation. If I had my way and without intending any disrespect to the dead, I would have cremated that body and had the ashes sent in an urn to the House of Commons with a request from this country that the urn should be placed somewhere where Mr. Amery could see it when he next answers questions on the food situation in India.

I hear that Censors elsewhere in India have so drastically cut the picture THE MOON IS DOWN that the distributors will probably not show it in that cut condition. Which proves one of two things: (1) The Bombay Censors missed reading between its lines or (2) they read the lines and pretended they were dumb.

Twentieth Century Fox must be livid with section of the press which drove home a few of Mr. John Steinbeck's points.

No Fear Of Water Scarcity In Bombay

The city is assured of a plentiful supply of water and there is no fear of any water scarcity for the coming year. Details of the storage of water in the Municipal lakes are very encouraging.

Tansa Lake, which is the principal source of water supply to the city started overflowing on July 17. Tulsi Lake commenced overflowing since July 13 and Poval Lake since July 18. Vehar Lake is not yet full to the brim but the monsoon is not far advanced and there is no fear of anxiety.

The rainfall recorded at the Colaba Observatory during the 24 hours ended 9 a.m. on July 29 was 47 cents, the total from June 1 being 55.49 inches.

PROSPECTUS

This Company has been formed for the purpose of fully set out in the Memorandum and Articles of Association and in particular to carry on the business of an Investment Corporation.

In England, the investment trust has been for many years past, a very prominent feature of joint stock enterprise and hundreds of millions of pounds have been invested in a large number of companies of this nature. It is somewhat surprising that so few investment trusts have so far made their appearance in this country, for their functions, more than any other form of investment, are admirably suited for the encouragement of the investment habit amongst Indian investors.

The main object of these Trust Companies is to employ the funds of their shareholders by investing them in the shares of carefully selected concerns. Those who invest in them, therefore, can do so secure in the knowledge that their investment risks are lessened by a large spread of investments whilst their interests are protected by an expert organisation, with a wide and extensive experience of the subject and an intimate knowledge of market conditions. As a result of this experience and knowledge investment opportunities can be secured beyond the reach of the ordinary man in the street. Moreover, with the ever increasing industrialization of India opportunities will occur when it will be possible for the Corporation to assist in the development and expansion of existing industries.

In endeavouring satisfactorily to utilise to the best advantage the moneys of this Corporation, the management will be guided, in co-operation with investment experts, by the following principles:—

- (1) For Safety:—Wide diversification over essential industries and first-class companies.
- (2) For Income:—Proved earning power and good dividend records.
- (3) For Stability:—Sound financial position and good reserves.

(4) For Capital Appreciation:—Key positions in promising industries, enterprising, Boards of Directors; Good management.

Present conditions necessarily limit the activities of the Corporation to investments in concerns operating in India but in the post-war era, it may become possible to take advantage of prosperous conditions abroad.

The management will be conducted in as economical a manner as possible, being in the hands of a company, the Directors of which have had many years of investment experience in this country.

Not more than 5% of the Issued and Subscribed Capital for the time being (including debenture capital as well as share capital) shall be invested in or lent on any one security other than a trustee security, but securities of different titles or denominations shall not be deemed to be one security by reason only of their possessing or being entitled to a guarantee from or by the same State, Government, Municipality, Corporation or other body. This provision shall not operate as regards investments or loans which at the time they were made, were within the prescribed limit, but by reason of amalgamation, consolidation or otherwise subsequently exceeded the limit. The Directors have resolved that at least 20 per cent. of the present capital raised will be invested in Government of India Loans.

MINIMUM SUBSCRIPTION:
The minimum subscription upon which the Directors may proceed to allotment is twenty five per cent. of the present issue which amount has already been subscribed.

The Articles provide for payment of a commission not exceeding 5 per cent. to any person for subscribing or agreeing to subscribe or procuring or agreeing to procure, whether absolutely or conditionally, for any Shares, Debentures, or Debenture Stock of the Corporation. The qualification of a Director shall be the holding of 100 shares of the Corporation.

of the Corporation of the aggregate nominal value of Rs. 10,000. The remuneration of the Directors will be Rs. 12,500 per annum or 1% of 1 per cent. of the Issued Capital per annum whichever may be larger to be divided amongst them in such manner as they may decide.

Special remuneration may be paid to any Director who shall be called upon to perform extra services or to travel on the Corporation's business.

VOTING: Upon a show of hands every member entitled to vote and present in person shall have one vote and upon a poll every member authorised to vote and present in person or by proxy shall have one vote for every share held by him and no member shall be entitled to be present and vote either personally or by proxy or as a proxy or attorney of any member or be reckoned in a quorum whilst any call or other sum shall be due and payable to the Corporation in respect of the shares of such member.

RESTRICTION OF TRANSFERS: The Directors may at their own absolute and uncontrolled discretion and without assigning any reason, decline to register or acknowledge any transfer of shares and in particular when the Corporation has a lien on such shares or any of them or if the Transferor is indebted to the Corporation on any account whatsoever or any moneys in respect of such shares have remained unpaid.

The preliminary expenses which are payable by the Corporation are estimated not to exceed Rs. 20,000 (exclusive of the commission paid in respect of shares already subscribed) in addition to a brokerage of annas 8 per Ordinary share and Re. 1 per Preference Share which will be paid on shares allotted in respect of applications for shares bearing the stamp of a broker, banker or other approved agent.

By an agreement dated 21st July 1943 the Corporation has appointed Messrs. K. U. Advani as the sole brokers to the Corporation for purchasing and selling securities for the Corporation in India, Burma and Ceylon for a period of ten years from the time the Corporation is entitled to commence business on the terms of the agreement. The Commission of brokerage at the rates prevailing on the respective Stock Exchanges, Mr. K. U. Advani a Director of the Corporation is the Proprietor of Messrs. K. U. Advani and as such is interested in the brokerage to be paid by the Corporation to the said Firm. If

the said Firm employs any other broker or brokers for carrying out any sale or purchase the Corporation will pay to the said Firm only one brokerage at the rate prevailing on the Stock Exchange where such broker is employed and where there is no Stock Exchange, at the rate prevailing on the Bombay Stock Exchange and the Firm will remunerate the broker or brokers so employed.

By an agreement dated 21st July, 1943 the Corporation has appointed Messrs. K. U. Advani Ltd., as the Secretaries to the Corporation for the period of 10 years from the day of 21st July, 1943 on a remuneration of (a) Rs. 12,000 per annum as allowance payable by equal monthly instalments of Rs. 1,000 each and (b) a commission of 7½ per cent. of the net annual profits of the Corporation provided the Corporation pays to its ordinary shareholders an annual dividend of not less than 4% (free of Income-tax) on the capital for the time being paid up thereon with a minimum commission in any case of Rs. 12,000 a year. Mr. K. U. Advani a Director of the Corporation is interested as a Director of the said Messrs. K. U. Advani Ltd. Application for shares should be made on the accompanying form and forwarded with the
